

# Project 3 - Pointer Practice

Planning:

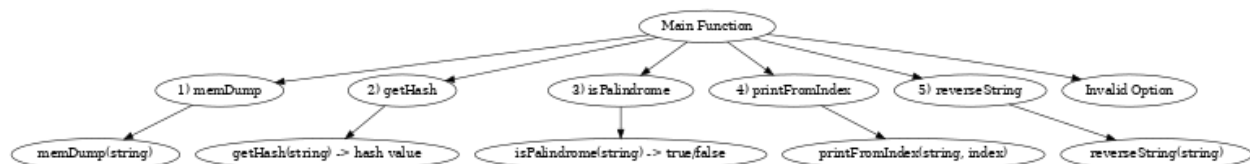

I have implemented all functions separately.

Pre condition :

- a) 1st input will be in small letter
- b) 2nd input number will be 1 to 5
- c) It will be int

Post Condition:

a)

Question :

1. Almost 7 hours. I need to look back at your class
2. Yes
3. It's difficult but fun. I am doing this for 1st time.
4. I should Practice C more because I make so many mistakes in c syntax. I find out this one is difficult to remember.
5. Memory operation handling. I hope it will help me in the future.
